PLEASE NOTE:

This Land Information Memorandum has been prepared for the purposes of Section 44A of the Local Government Official Information and Meetings Act 1987 and contains all the relevant information relating to the land held by Council. It is based on a search of Council's property records and there may be other information relating to the land which has not been specifically recorded against this property or known to the researcher. Other organisations may hold information relevant to this property, for example Waikato Regional Council and network utilities companies for electricity, gas and telephone information.

City Waters Information

Public Water & Waste Services:

A water connection is showing as serving the property.

The water supply is logged as being 4.6m from the right hand boundary.

No stormwater connection is shown on the log plan as serving the property.

A wastewater connection is shown on the log plan as serving the property.

A public sanitary sewer pipeline is shown as passing through the property. Conditions will be imposed on any building consent, including the approval of Water and Waste Services, which shows building over or adjacent to the pipeline. Note: No building is permitted to be constructed over a Hamilton City Council manhole or over a connection to the public main. Further, Council has no record of the trench compaction for the public pipeline within the property. It is advised that an investigation of the trench backfill, by a suitably qualified engineer, be undertaken prior to foundation design for any structure over or adjacent to the pipeline.

A sanitary manhole number WWP18022 is shown on the log plan as located on the property.

Notices and Requisitions: None recorded for this property.

Information provided to Council under section 362T(2) of the Building Act 2004:

None recorded for this property.

Information held under Section 124 of the Weathertight Homes Resolution Services Act 2006:

None recorded for this property.

General Information: None recorded for this property.

Record of Fill: None recorded for this property.

Legal File / Bonds / Encumbrances: None recorded for this property.

Earthquake Risk: None recorded for this property.

Swimming Pool: None recorded for this property.

Building Warrant of Fitness: Not applicable to residential properties.

Important to Note:

In line with Local Government Official Information and Meetings Act 1987 as of October 2015, we no longer included building consent or building/drainage permit plans within the LIM report. If you require more information, please contact Customer Services Centre at Hamilton City Council.

Prior to the Building Act 1991, Council was not required to keep detailed records for building permits issued. As such, limited information is held and, in some cases, we are unable to identify building permits for particular properties.

The information provided in this application is in accordance with Section 44A (2) of the Local Government Official Information and Meetings Act 1987 (LGOIMA). In addition, Hamilton City Council informs the applicant that historic information (limited to basic consent details- no plans held) may, or may not, be contained in the 'Historic Building Register'. These registers have been archived at the Central Library (Garden Place) and are open for inspection in accordance with sec. 15 (1) (a) of the LGOIMA 1987.

If work has been carried out without a building consent:

With the introduction of the Building Act 2004, the service of providing what has been commonly known as “Safe and Sanitary” inspection has been discontinued. There is no longer the ability to make an application to Council for this service.

The Building Act 2004 allows for any person to apply for a “Certificate of Acceptance” for any work that has been completed without a building consent. This is however only applicable to work carried out after the inception of the Building Act 1991 (1 July 1992). A “Certificate of Acceptance” must be applied for on the appropriate form.

For any work completed without a building consent and prior to 1 July 1992 there is no process available through Council for acceptance or qualification of this work. Where such building work is the subject of a condition for a building report in a sale and purchase agreement, then you will need to obtain the services of a qualified person from the private sector.

Council is bound by the Building Act 2004 and has a role to ensure the health and safety of the public with regard to buildings is always maintained. If you are aware of a situation that you believe compromises the health and safety of building users, then you need to refer the matter to Council at the earliest date.

Any future site works within the protected root zone of this tree will need to comply with rules in Chapter 20 of the District Plan.

COMMENTS

The District Plan includes Flood Hazard overlays which identify Low, Medium and High Flood Hazard Areas, identified where applicable in Section 2.0 above under Natural Hazard Areas. This is based on flood data available at the time of development of the District Plan (notified to the public December 2012). In some cases, this may differ to that identified in the City Waters section of this LIM report which includes any relevant 'best available' flood data for this property.

Environmental Health Information

Note:- No inspection of the subject business premises/property has been carried out as a result of this application.

Information concerning any consent, certificate, notice, order, or requisition affecting the land or any building on the land previously issued by Council:

No information in relation to consents, certificates, notices, orders or requisitions are currently held in respect of this business premises/property. This does not preclude the possibility of consents, certificates, notices, orders or requisitions being issued in the future.

Likely presence of hazardous contaminants known to Council:

Council holds records of properties where certain hazardous activity and industrial landuses (HAIL) that are considered likely to cause land contamination are known to be occurring, may have occurred, or have occurred in the past.

Council records show that the land that is the subject of this LIM is being used for the following HAIL landuse:-

HAIL Landuse:

- HAIL A17 - Storage tanks or drums for fuel, chemicals or liquid waste

Status: Confirmed

Apart from the known landuse, no further information is held by Council in relation to the likely presence of hazardous contaminants at the time of issue of this LIM report.

Important notes:-

The fact that Council holds no further information as to the likely presence of hazardous contaminants does not mean the absence of contamination, but simply means that no information is currently held by Council (apart from this record held in an electronic format).

The Resource Management (National Environmental Standards for Assessing and Managing Contaminants in Soil to Protect Human Health) Regulations 2011 would apply to any tank removal, subdivision, change of use, soil disturbance or soil sampling activity proposed in relation to the land. This may require application for resource consent in accordance with the Resource Management Act 1991.

Council is concerned with human receptors only. You are advised to contact the Waikato Regional Council, who may or may not have further information in relation to HAIL landuse and the likely presence of hazardous contaminants for this land, in relation to ecological receptors.

Disclaimer:-

*Hamilton City Council accepts no liability for any inaccuracy in, or omission from, the information provided above, or for any consequence of that inaccuracy or omission.
Any person who wishes to make any commercial decisions that involves an assessment of whether the site is impacted by hazardous contaminants should make their own enquiries and decisions.*

Further information:-

More information on hazardous activities and industries that are considered likely to cause land contamination can be found at:- <https://environment.govt.nz/publications/hazardous-activities-and-industries-list-hail/>

City Transportation Information

Road Works:

Council has an ongoing programme of minor road works, and larger projects that can, from time to time, impact on access to properties and amenity. Generally, we will let neighbouring property owners know when we have work planned through a letter drop. If planned roadworks are of interest to you, information can be found as follows:

- Council regularly updates information on events, projects and major works requiring lane or road closures in Hamilton on its website. You can check this information on our 'Week on the street' page at <https://hamilton.govt.nz/your-council/news/on-the-move/week-on-our-streets>
- Council regularly updates information on minor roadworks on its website. These works require lane or road closures in Hamilton. You can check this information on our Minor Roadworks page at <https://hamilton.govt.nz/your-council/news/on-the-move/hamilton-city-minor-roadworks>

Rights Of Way / Shared Access:

It is probable that a 'right-of-way' or 'Shared Access' serve this property. You are advised to check with your legal adviser as to what your responsibilities would be with regard to the maintenance of the 'right-of-way' or 'Shared Access' and associated services (including any lighting).

Vehicle Crossing:

For vehicle access it is necessary that this property is served by a properly formed vehicle crossing. If you are unsure as to the adequacy of the crossing, Please contact us as below. More information can be found at <https://hamilton.govt.nz/do-it-online/apply-for-it/apply-for-a-vehicle-crossing/>

Road Resurfacing:

If the road this property is located on is surfaced with hotmix, the road may be resurfaced with chipseal when the current surfacing material reaches the end of its useful life. The end of its life will be when it no longer provides waterproof cover for the underlying pavement layers.

TREES AND YOUR POWER SUPPLY

The Waikato is a region of great beauty – fertile pastures, clean rivers and millions of trees. Unfortunately, overgrown and inappropriate trees near power lines are one of the biggest contributors to power outages in our area. Even when trees appear to be well clear of the lines, they still pose a threat to the power supply during storms and strong winds.

WEL Networks, your electricity lines company is dedicated to delivering safe and reliable power to you.

Does this property have trees growing near power lines?

WEL Networks regularly carries out patrols on its lines to identify problem trees. Trees that are encroaching on the power lines are

entitled to one trim carried out by WEL Networks for free*.

This offer pertains to the property, not the property owner.

Contact WEL Networks to find out if any trees on this property have already had their free trim as any subsequent trimming or felling of trees is the responsibility of the property owner.

If you are a property owner then you own, and are responsible, for maintaining the lines and equipment on your property. This also includes trees that reach over your property boundary and encroach on either power lines in the roadside reserve, or into neighbouring properties.

* Some conditions apply.

WHO OWNS WHAT?

WEL Networks owns the electricity distribution network throughout the Waikato.

However, we generally don't own the lines from the boundary of your property to your home or business. These are called service lines and they're owned by the property owner. This includes any equipment on your property such as poles, cross arms, insulators and underground cables.

If your service line serves others too, for example if you live down a right of way (R.O.W.), then you share ownership with the other property owners.

If you would like to find out more information about trees on this property and your responsibilities, contact WEL Networks directly on 0800 800 935 or trees@wel.co.nz. The rules surrounding trees

and power lines are covered by the Electricity (Hazards from Trees) Regulations 2003. If you would like to download a copy of the Tree regulations visit our website:
